This book of the fourth volume is a continuation of known marriages in Ross County, Ohio, from January 1, 1901 to December 31, 1925. Robert Casari compiled the first three books, which cover 1798 to 1900. This volume is typed in the same manner, as were the first three, except, with no footnotes. The marriage records were translated using the actual marriage record books from Probate Court.

This book is meant for a guideline to help researchers find family marriage records. Bride and grooms names were typed to reflect the best deciphered spelling. Keep in mind that after 1900, the bride and groom's names can be written by three different persons: (1) the clerk who took the information for the application, (2) the bride and groom signature, and (3) the person who performed the ceremony. If there was a discrepancy, the bride and grooms signature was used as and assumed to be the correct spelling.

The marriage record itself contains more information than this index reflects. The application may include: birth date of bride and groom, their address at the time of application, birth place, father and mother's name which includes mother's maiden name, information regarding any former marriages (parties of the divorce, County of divorce, Case number of Divorce and a list of any minor children who were issues of such marriage.)

Most of the marriages took place in Ross County; however, there are a few exceptions that may appear recorded from other places. In some cases, marriage license' do not appear to have been obtained before the marriage took place.

We have included the bride's maiden and married name wherever possible. For Example: Doe, Mrs. Jane Miller or if the bride married a second time under her maiden name it may appear as: Miller, Jane (Mrs. Doe)
